# ROQ READY

ROQ READY is an automatic pretreating machine with 8 stations, that combines pretreat, heat press and flash cure units. This inline solution has a maximum pretreatment application size of 500x700mm /20"X28", and includes pallets with foam for a uniform fabric.

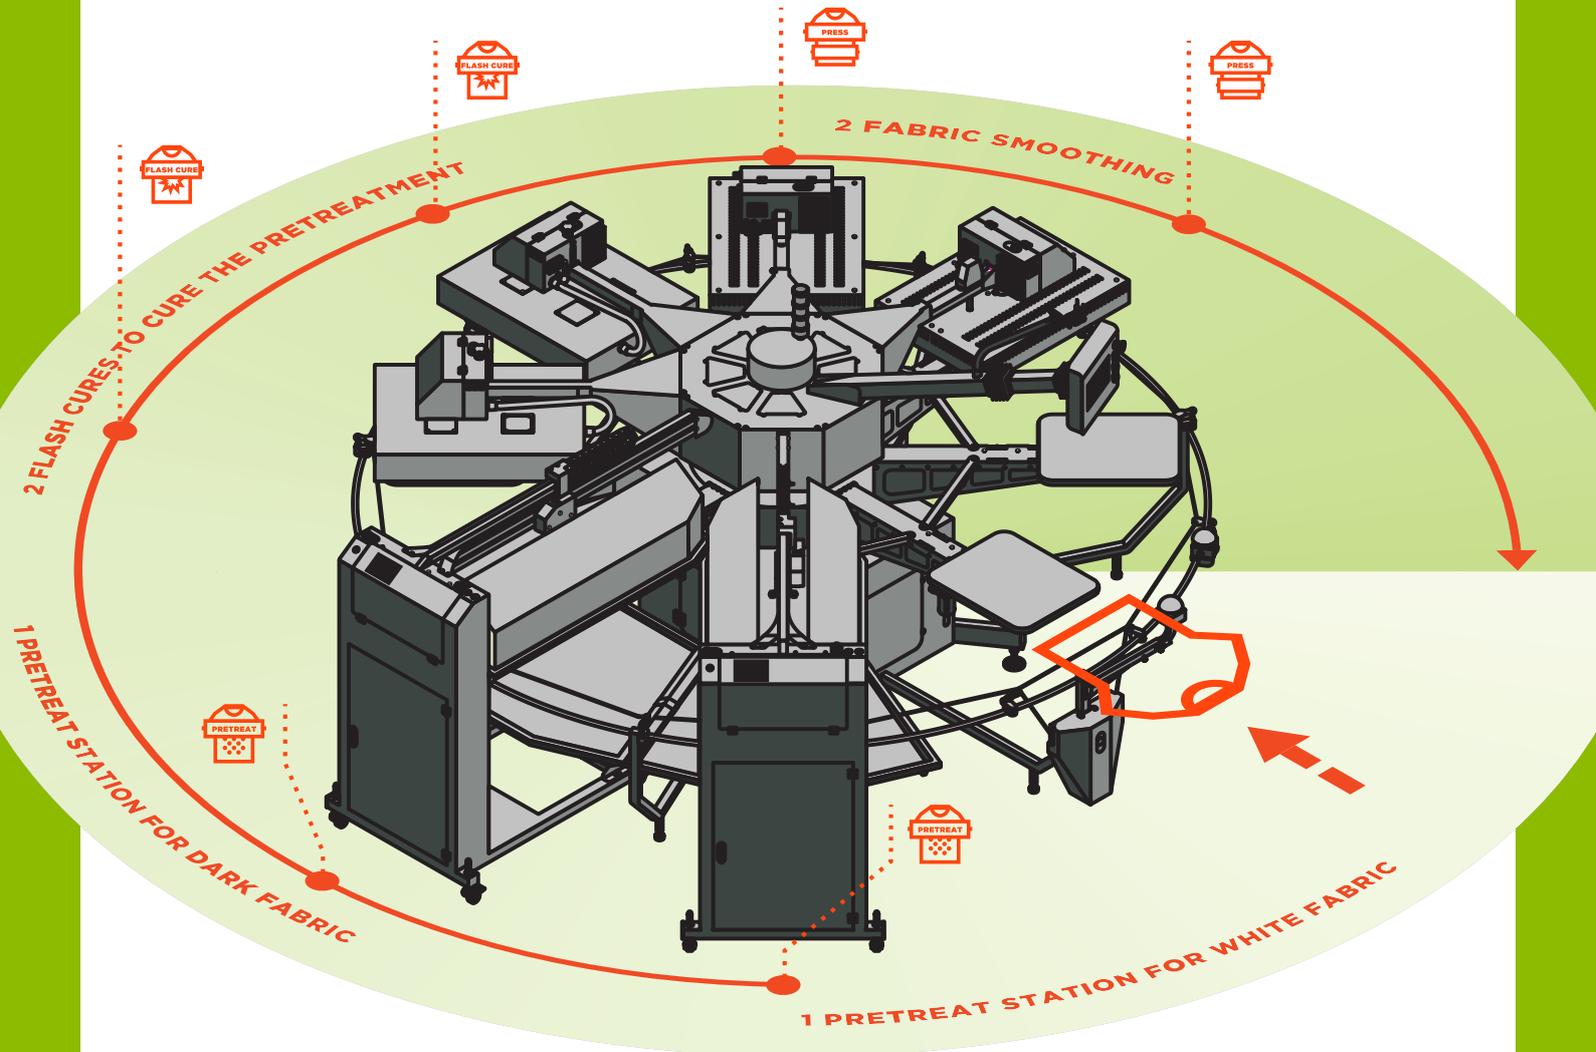

The ROQ READY can run up to 250 pieces/hour and allows an efficient workflow when combined with ROQ GO, a DTG single pallet machine.
