BEST. EVER.

The X-UV Printer cannot be beat.

Large flatbed printers designed for signage and graphics print at high speeds but are limited by substrate thickness.

Small format printers designed for specialty items print at slower speeds and are limited by substrate length and width.

*The Xanté family of X-UV Printers do **BOTH**.
It's the best of both worlds.*

Signage • Manufacturing • Specialty Items • Industrial • Packaging

Simply Brilliant Color Workflow

INCLUDED!

Quickly and easily create new jobs.

Welcome to the iQueue 14 Prepress Software

Xante builds on its innovative workflow software with powerful team-based productivity in iQueue 14. True server-client operation enhances your workflow to optimize the talents and time of everyone involved in production. Take advantage of your entire team

of IT specialists, designers, and printer operators to simplify prepress tasks

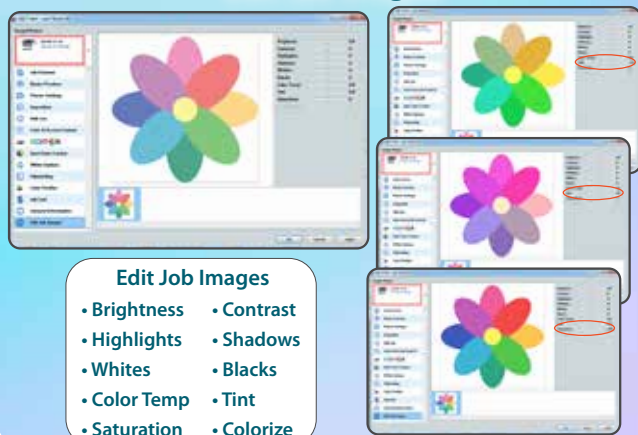

such as job sharing and job cost estimating, file editing tools, patented Right-On Spot Color Matching and much

more. Create attention-grabbing displays with VividHD-UV ink. And, with instant curing, your customers will appreciate the fast, durable results.

iQueue features include:

- Independent CMYK Density Controls
- PANTONE® Color Library
- Right-ON® Spot Color Matching
- QR Code Generator
- Full Imposition and Tiling
- PDF-Out AND SO MUCH MORE!
